

NATIONAL FOOD PLOT SEED PROGRAM

Chapters in most areas can access the PF/QF National Food Plot Seed Program, that makes high quality dated crop seed available to chapters at very low cost. PF/QF's Signature Series food plot mixes are also available at reduced prices for chapters and partners. Ordering occurs in September for the next spring, so watch for notification. Questions? Contact Jim Wooley (641-203-1020 / jwooley@pheasantsforever.org).

"Signature Series" Food & Cover Mixes from Pheasants Forever

From Birds to Bucks, with 18 Specialty Mixes, "The Habitat Organization" has your food plots covered.

Nobody knows wildlife habitat better than "The Habitat Organizations". [Pheasants Forever](#) and [Quail Forever](#) proudly present our Signature Series line of food & cover seed mixes. Developed by Pheasants Forever and Quail Forever wildlife biologists, the Signature Series mixes are field-tested and proven to meet the food and cover needs of pheasants, quail, deer, turkeys, doves, and a host of other upland wildlife.

There is a strong relationship between the location of food, thermal cover and over-winter survival for upland birds. That makes food plots a critical component for effective wildlife management. PF/QF food and cover mixes target upland wildlife and big game, and work nearly everywhere in bird country.

The Signature Series Grain Mixes

Pheasants Forever and Quail Forever's 12 Signature Series grain mixes are 'bread and butter' prescriptions for wintering wildlife. They include specially designed sorghum blends, and diverse recipes designed by PF's wildlife professionals, to fit almost every planting situation. These high-energy mixes help carry hens through winter in peak condition for nesting and brood rearing.

PF/QF Signature Series Grain-Based Mixes

- Blizzard Buster.....Grain & forage sorghums—the 800 lb. gorilla of food plot mixes
- Covey Rise.....Grain sorghum blend, specially selected to provide great cover and food
- Early Longtail Milo.....The earliest grain sorghum available (85 day maturity)
- Winter Shield.....Grain and forage sorghums, with several millets
- Cane Madness.....Stiff-stalked, heavy-seeded cane sorghums for maximum cover and food
- White Lightning.....All white & cream sorghums for super wildlife attraction, including deer
- Dove Kandy.....High energy black oil sunflower blend
- Winter Survival.....Corn-heavy with grain and forage sorghums, buckwheat, sunflower
- Rooster Booster.....Grain and forage sorghum-heavy with corn, buckwheat, German millet
- Western Food & Cover.....Sorghums, sunflower, sudan, sweet clover, millets—not just for the West
- Dove & Quail.....Sunflower, sorghums, several millets—works most everywhere
- Quick Food & Cover.....5 millet blend provides fast maturity and great grain production

The Signature Series Bird & Buck Mixes

Our 6 Bird and Buck green browse mixes provide the best of both worlds for wildlife. These forages are wildlife magnets that attract deer and turkeys, and create leafy, insect rich, bugging areas for pheasant and quail broods.

Bird & Buck Signature Series Green-Browse Mixes

- Clover & More.....6 Clovers, alfalfa, rapeseed
- Whitetail & Gamebird.....6 Clovers, alfalfa, rapeseed, oats, rye, several grasses, vetch
- Deer Kandy.....Alfalfa, multiple clovers, partridge pea (a great firebreak mix)
- Triple Treat Brassicas.....Food grade & forage turnips & radishes seeded late for fall/winter feed
- Whitetail Forage Brassicas.....Kale, turnips, canola, pasja, rapeseed, seeded late for fall/winter forage
- Chick Magnet.....Diverse broadleaf mix that's a haven for juicy bugs and hungry broods
